

Doctors and Scientists on Mandatory Masking

“Masks do not and cannot protect from infection... Moisture retention, reuse of cloth masks, and poor filtration may result in increased risk of infection.... Since the government enforced the use of masks, many elderly people believed that they were safe while wearing them. Nothing could be further from the truth. Wearing a mask can entail serious health hazards, especially for people with pulmonary disease and cardiac insufficiency...”¹

— Dr. Karina Reiss, Ph.D.,
award-winning professor of biology, University of Kiel,
researcher and co-author of *Corona, False Alarm?* & *Corona Unmasked*

“In fact, there is no study to even suggest that it makes any sense for healthy individuals to wear masks in public. One might suspect that the only political reason for enforcing the measure is to foster fear in the population.”²

— Dr. Sucharit Bhakdi, MD.,
former chair of Medical Microbiology at the University of Mainz,
awarded Order of Merit of Rhineland-Palatinate

“It is a testimony to the power of propaganda, institutional capture, and the desire to socially conform that masking of the general population has successfully been imposed during the COVID-19 era. The harms from this imposition are palpable, and potentially long-term and gargantuan, not the least of which is the psychological training of the public to comply with an absurd measure that has direct personal negative impact. [In my research paper] I review the mounting evidence of the obvious: Universal masking harms people and society, without any detectable benefit.”³

— Prof. Denis Rancourt, Ph.D.,
researcher, Ontario Civil Liberties Association,
member scientist, *Pandemics: Data & Analytics Group (PANDA)*

“Masks are utterly useless. There is no evidence base for their effectiveness whatsoever. Paper masks and fabric masks are simply virtue-signalling. They’re not even worn effectively most of the time. It’s utterly ridiculous seeing these unfortunate, uneducated people — I’m not saying that in a pejorative sense — seeing these people walking around like lemmings, obeying without any knowledge base, to put the mask on their face.”⁴

— Dr. Roger Hodkinson, MA, MB, FRCPC, FCAP,
certified pathologist with the Royal College of Physicians and Surgeons of Canada,
CEO and medical director of Western Medical Assessments
